The *Journal of Mosaic of Autoimmunity (JMAI)* was launched with the aim of providing an international, interdisciplinary platform for advancing research on autoimmune diseases, immune dysregulation, and their clinical and mechanistic diversity. As a newly established journal, *JMAI* is deeply committed to maintaining high standards of academic quality, integrity, and transparency from its very beginning.

A rigorous and fair peer-review process lies at the core of high-quality scholarly publishing. During 2025, reviewers played a crucial role in supporting the editorial development of *JMAI* by dedicating their time, expertise, and critical insight to the evaluation of submitted manuscripts. Through careful assessment of scientific rigor, originality, methodological soundness, and clinical relevance, reviewers helped ensure that published articles meet the journal's quality expectations and provide a solid foundation for future growth.

We fully acknowledge that peer review is a demanding and often unrecognized contribution to the academic community. The professionalism, responsibility, and constructive feedback provided by our reviewers have been instrumental in shaping manuscripts, guiding authors, and establishing the academic credibility of *JMAI* at this early stage.

On behalf of the editorial board and the publisher, the Editorial Office sincerely thanks all reviewers who contributed to *JMAI* in 2025. Their efforts—regardless of the final editorial outcomes of the manuscripts reviewed—have been essential to the successful development of the journal. We look forward to their continued engagement and collaboration as *JMAI* grows in scope, visibility, and scientific impact.
